Spa du Montcel Sothys to open at Dolce by Wyndham Versailles

The new Spa du Montcel Sothys is preparing to open at the Dolce by Wyndham Versailles – Domaine du Montcel.

In the heart of France's Yvelines region, Dolce by Wyndham Versailles is a symbol of French heritage less than 30 minutes from Paris.

The 1,000sqm Spa du Montcel Sothys will offer seven treatment rooms (one double) and a manicure/pedicure room. It will employ five full-time therapists as well as a team of five freelancers.

Facilities include a connected indoor outdoor pool, sauna and hammam, sensory shower, relaxation room and snow cave, all supplied by Hydro Concept Monaco.

There is a large sun terrace and Matrix-equipped fitness centre.

Treatment beds are supplied by Tulum and all treatments are by Sothys. Uniforms are from Beautystreet, and software is by Spa Booker.

The interior design is the vision of interior architect Sébastien Flamant and contemporary artist Elodie Lefèvre.

The plant-based decor includes a mosaic wall, which evokes the history of Toile de Jouy. A waterfall plunges directly into the indoor sensory pool and there is a health trail with water jets.

As well as daily spa entrance, the spa will offer three membership levels.

“Spanning an impressive 1,000sqm our spa boasts outstanding facilities surrounded by a picturesque 14-hectare park and embellished with state-of-the-art design. It is the perfect destination to unwind in style.”

Karin Raphael

Spa manager, Spa du Montcel Sothys

Exclusive Sothys treatments

The Soin Excellence Secrets de Sothys Rituel Visage et Corps is an exclusive 150-minute facial and body ritual.

An eight-step facial includes a sensory makeup removal, exfoliation, massage, mask and a sublimating finishing touch.

Then a three-step body treatment begins with an awakening prelude, followed by a granulated scrub and concluding with a nourishing massage.

Other menu options include fully customisable body treatments with a choice of six sensory notes and the Sothys certified-organic radiance treatment.

There are signature body treatments including the Japanese-inspired Hanakasumi and intensive facials including the Hydra Hyaluronic Acid4 hydrating treatment.

Dolce by Wyndham Versailles

Owned by the Oberkampf-Mallet family, restored buildings in the Domaine du Montcel have been transformed into the 178-room Dolce by Wyndham Versailles.

Located near the world-famous Château de Versailles, the property can be traced back to the early 18th century.
